MODULE 4: BRAINSTORM ACTIVITY – SHARING IDEAS & FINDING A COMMON GROUND

INTRODUCTION

In this activity participants will be part of a brainstorming session where they generate ideas for enhancing online safety and security in their counselling practice. Participants will need to identify potential risks and vulnerabilities, and propose practical strategies for protecting both clients and practitioners from online threats.

OBJECTIVES 🎯

- Select the most appropriate licences when using online resources.

TYPE

💡

IDEA

DURATION 🕐

30 to 45 minutes

MATERIALS NEEDED FOR THE IMPLEMENTATION

Comfortable setting (chairs, tables), paper sheets, markers

METHODOLOGY

STEP 1

Participants will use their pre-existing and newly leant knowledge within the module to create a list of do's and don'ts around online safety and GDPR.

- Participants are divided into at least two small groups
- each group is given a large paper sheet presenting two columns, respectively, "Dos" and "Don'ts'

METHODOLOGY

STEP 2

- participants are given 15 minutes to brainstorm and complete their list
- once the lists are completed, participants shall display and present the results.
- The trainer shall invite the whole group to merge the different lists and agree upon a common list of Dos and Don'ts
